

HOW DO I ACCESS THE DATABASES & THE CATALOG FROM OFF- CAMPUS?

DATABASES:

(http://www.mcm.edu/newsite/web/library/db_indexes.htm)

We are using EZproxy to authenticate access so you must:

- Select DATABASES
- Select BASIC SEARCHING
- Open any database you choose to
- The system will ask you for your McMurry network ID and password – you use this log-in for access to your EMAIL and MOODLE.
- Once the database is open you may use it or any other of the databases as long as your browser is open.

CATALOG:

The Catalog does not require a log-in. But in order to place holds for items from other Consortium Libraries you need to have the BARCODE off of your McMurry ID card and your PIN number will be the last 4 digits of your Social Security number.

COURIER:

The Library is part of the Abilene Library Consortium. This allows our patrons to borrow material from area libraries. The courier runs Monday - Friday. You can request books be delivered here from the other libraries or go to the library and pick up the material yourself.

YOU MUST HAVE AN ACTIVATED BARCODE TO CHECK OUT MATERIALS FROM THE CONSORTIUM LIBRARIES. COME BY THE LIBRARY CIRCULATION DESK AND MAKE SURE YOUR BARCODE IS ACTIVATED!
